المؤتمر العربي الدولي للإكتواريين ٢٠٢٦

INTERNATIONAL ARAB
ACTUARIAL CONFERENCE 2026

العالم بعين إكتوارية

THE WORLD FROM AN ACTUARIAL EYE

A glimpse into the remarkable attractions of Dubai, the host city of this year's conference.

About the Event

The International Arab Actuarial Conference 2026 is a special international edition of the regional Arab Actuarial Conference, which is a professional platform for actuaries, actuarial firms and businesses and industries that depend on actuarial work such as insurance, finance, banking, healthcare, pension and risk management in Middle East and Africa.

Conducted in a different Arab capital every year, the highly attended event tackles emerging issues and future themes affecting actuarial work especially as it relates to the said sectors.

The 2026 edition of this conference will be hosted in Dubai, the global hub of the Middle East.

MenaMoney

We organise and own a number of specialised conferences and tradeshows for the government and financial sectors in the Middle East and Africa.

These are primarily in private pension funds, pension and social insurance organisations, financial literacy and savings, wealth management and Robo Advisor, health insurance, actuarial business and risk management industries.

We also provide professional event management services and logistical support for institutions and clients seeking help in organising their business and marketing events.

Sponsors & Participants

Insurance Consulting and Technology

Innovate and transform insurance together

Risk and capital management

Together, WTW's consulting expertise and market-leading financial and capital modeling software offer clients seamless, compelling and practical solutions to meet regulatory requirements and improve business performance.

Strategy and growth

We provide targeted consulting and technology solutions that address both enterprise-wide and functional insurance challenges, to help clients to fix, grow or transform their businesses. Crucially, our solutions are commercially robust, pragmatic and flexible.

Technology

WTW's technology team and insurance consultants work together seamlessly to help clients maximize the benefits of solutions that combine our leading-edge thinking with the latest technology.

Operational effectiveness and profitability

Working across the insurance value chain, we apply proven techniques and technologies to help clients transform and streamline operational processes. We maximize returns by reducing costs, supporting revenue growth and releasing trapped capital.

END OF DAY ONE

Our **PortfolioManager™** allows you to securely manage all your investment data and reporting in a single place.

Life. Health. Savings.

And the Confidence to Move Forward.

At HAYAH, life and health insurance go beyond protection.

They are about empowering futures with confidence, resilience, and long-term well-being, at every stage of life.

And because the future doesn't happen by chance.

Our **Employee Savings** and **Individual Savings** solutions are designed to turn intention into long-term security, helping people move forward with confidence.

Discover more at www.hayah.com

A silhouette of a family of four (two adults and two children) walking away from the viewer towards a city skyline at sunset. The city skyline includes the Burj Khalifa. The sky is filled with warm orange and yellow hues. The family is holding hands, symbolizing a secure future. The overall image has a dreamlike, hopeful quality.

Empowering futures
